Mark Cleveland, Course Coordinator at 517 366-9963

Course Description:

This 170 hour course (which includes 30 hours of student teaching outside of the classroom) is designed for persons interested in *becoming* Michigan Instructor/Coordinators. Emphasis will be placed upon teaching methods and skills important to course application and management.

Current Instructor/Coordinators interested in upgrading teaching skills can obtain continuing education credits for re-licensure. Participants simply identify the credits needed for re-licensure and attend during those particular hours. Over 135 credits have been applied for in all three required categories. There is no easier way to acquire those mandatory credits and learn the latest strategies for teaching EMS better.

General initial Course Admission Criteria

3 years field experience as an MFR, EMT, EMT-S, or EMT-P, Current CPR Instructor, Endorsement of 2 active Michigan I/C's, Letter from your employer to include certification of 3 years of field experience as an MFR or above, Self written letter explaining intended use for I/C certification. Note: A criminal history could negatively impact your ability to obtain an IC License.

Course is pending MDCH approval and Enrollment minimum of 14
