Time 0900-1600

Cost: RAFT Member \$100

Non Member \$150

***Lunch and Breakfast Provided**

Register at www.raft911.org

The toughest and most critical decisions you make in your career typically revolve around committing to an interior attack or choosing another route. Seasoned officers know the difference between “*We can get it*” and “*It’s lost*”. You should too...

Utilizing a simple framework that allows you to build on your experiences, and those of others, you can develop an intuitive approach that grows with you throughout your career. This is not a magic class and no one becomes a great decision maker by attending a few classes and watching a few videos. The goal is to create a framework of 3 varying profiles: Rescue, Building, and Fire. These profiles allow you to keep focused on your decisions and give you the ability to draw on what you’ve learned and react to changes in the dynamic fire environment.

Attendees will leave with tools with which to drill their troops and continue to grow in their ability to make great decisions. The lecture provides an intuitive learning model that expands as individuals use it and gain more experience. For those with limited fireground experience, it will help to jump start their knowledge base and give them a framework to evaluate more effectively right from the start. Experienced firefighter will find a better method of recognizing what they know, putting it together with new information and making better decisions even when all information is not clear.

Captain Mike Gagliano, Seattle FD (Ret)

*With over 30 years of fire/crash/rescue experience with the Seattle Fire Dept. and U.S. Air Force, Captain Gagliano has written numerous fire service articles, is co-author of the bestselling books *Air Management for the Fire Service*, *Challenges of Firefighter marriage* and the SCBA chapter of the *Handbook for Firefighter 1 & 2* from Pennwell.*

He is a member of the Fire Engineering/FDIC Advisory Board, a Director for the Firesmoke Coalition (Firesmoke.org), he is on the advisory board of the UL-Firefighter Safety and Research Institute and teaches across the country on Air Management, Fireground Tactics, Leadership and Company Officer Development.

Mike co-opts the popular Fire Engineering radio webcast “The Mikey G and Mikey D show” and partners with his wife Anne (Firelife.com) to teach on strategies for developing and maintaining a strong marriage/family.
